Examiner's Reasons for Allowance

1. Examiner has considered Applicant's response dated 07/06/2004 and after further review of Applicant's comments, claims 1 – 26 are in condition for allowance. The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

“...generation of messages directed to the nodes of the set for causing installation of at least one software product on the nodes of the set in parallel according to a non-blocking sequence of nodes; and the non-blocking sequence being characterized in that installation of the at least one software product on one node of the set does not block installation of the software product on another node of the set”, as best illustrated by figure 2 and in such a manner as recited in independent claims 1, and 21 – 24.

Therefore, all claims, i.e. claims 1 – 26 are in condition for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
